

# 18-18 Retaining Rings for Generators

Minimize your lead time on  
repairs and rewinds

EthosEnergy currently holds the largest inventory in the USA of OEM-recommended 18Mn18Cr retaining rings for generator rotors, including eight different sizes.

Inventory is available for sale as a standalone unit or as part of a generator rotor rewind through our [Farmington generator services facility](#).

Average lead time for a new retaining ring manufacture is 3-8 months plus shipping. Eliminate this costly lead time by utilizing our 100% in-house generator rotor and stator services with our 18-18 retaining ring program. Servicing units up to approximately 300 MW.

## SPECIFICATIONS

18Mn18Cr retaining  
ring forgings

ASTM 289 Grade 5

### About EthosEnergy

EthosEnergy turns on potential to deliver services and solutions globally for rotating equipment to make energy affordable, available and sustainable.

A unique combination of partnership and service quality, backed by a track record of tailored solutions, for the power, oil & gas, industrial and aerospace markets.

EthosEnergy operates in over 100 countries to consistently improve performance across the value chain.
